

8" (20.3 cm) Thermal Tablet Protective Cover

Item #7160-0981

Patent Pending

This universal tablet cover is designed to keep tablets warm and dry in freezing conditions. A built in heater automatically activates when your tablet's temperature is less than 40° F (4.5 ° C). The cover is made of polyester with a urethane backer and features easy to adjust Velcro closures. The design fits Zebra, Panasonic, Getac, and other tablets. It also works great for tablets using a keyboard bracket. If the screen gets dirty, simply wipe it down with a soft cloth and gentle cleaner or replace it with a new screen.

A power supply (item no. [7400-0002](#) or [7400-0003](#)) is required to support the function of the cover.

Weight

0.95 lbs. / 0.43 kg

Dimensions

Height: 13.5" / 34.3 cm
Width: 11.25" / 28.6 cm
Depth: 3.25" / 8.3 cm

Features

- Materials are water, UV, and dust resistant
