

Ergotron® Mobile WorkStand

integrating technology and convenience

Highlights

- Configurations are easily customized with many modular component options
- Multiple users can easily position monitor to their own comfortable viewing position
- Compact footprint, 27" (686 mm), reduces space requirements
- Arm's internal cable management conceals and routes cables
- Sturdy, five-legged design with optional Weighted Base
- Durable, lockable 4" diameter casters provide smooth movement of the complete unit
- Easy-to-clean, heavy-duty steel construction
- VESA® Flat Display Mounting Interface (FDMI™) Standard compliant for easy monitor attachment
- Install components at any height on Pole
- Industry-leading warranty

The Mobile WorkStand easily adjusts to a sitting or standing user height while still providing an ergonomically correct work environment—even in tight areas. Customize your WorkStand to meet your needs for mounting a flat panel monitor, laptop, keyboard and mouse, CPU, UPS, cables and more.

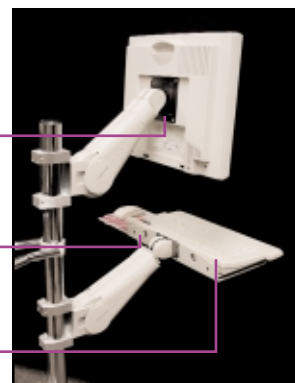

Up to 20" (508 mm) of vertical adjustability in Arms.

Base Tray.

VESA® Flat Display Mounting Interface (FDMI™) Standard compliant for easy monitor attachment.

Internal cable management system provides clean and organized installation.

Keyboard Tray, Wrist Rest, and Mouse Tray adjusts to user's needs.

Mobile WorkStand Laptop configuration with accessories.

Handle.

Wire Storage Basket.

Cable Box conceals and organizes cables or can hold hardware.

Base Tray uses two polyurethane straps and quick-release buckles to secure equipment.

Weighted Base.

Five 4" Casters, two are lockable.

Dual-monitor configuration using Ergotron's Paraview Technology.

CPU Holder adjusts to fit your equipment.

The Ergotron Power System (EPS 100 and EPS 48) allows the user superior mobility in wireless applications.

Footrest.
